Thought Answer
Key

Just as life has a history, science has a history. Understanding the history of evolutionary thinking illuminates the nature of science. In this section, you will see how study in four disciplinary areas — Earth's history, life's history, mechanisms of evolution, and development and genetics — has contributed to our

History of Evolutionary Thought - Understanding Evolution

Contrary to popular belief the concept of an evolutionary origin of the universe and its life forms did not begin with Charles Darwin's *On the Origin of the Species by Natural Selection* in 1859. The

thought section 15-1 Flashcards... Answer

History of evolutionary thought → History of evolutionary biology — The current title of this article (History of evolutionary thought) does not seem appropriate. Firstly, evolutionary thought is not an encyclopedic topic as evidenced by the fact that it does not have its own article (I created it as a redirect to this article earlier
