International Political Economy and Trade | Princeton ...

The field of international political economy gained prominence in the early 1970s — when the Arab oil embargo and other crises ended the postwar era of virtually unhindered economic growth in the United States and Europe — and today is an essential part of both political science and economics. This book offers the first comprehensive examination of this important field’s development, the contrasting worldviews of its American and British schools, and the different ways scholars have ...
