Imagination is the ability to produce and simulate novel objects, sensations, and ideas in the mind without any immediate input of the senses. It is also described as the forming of experiences in one's mind, which can be re-creations of past experiences such as vivid memories with imagined changes, or they can be completely invented and possibly fantastic scenes.

The sociological imagination is the ability to see things socially and how they interact and influence each other. To have a sociological imagination, a person must be able to pull away from the situation and think from an alternative point of view. This ability is central to one's development of a sociological perspective on the world.
