(1949) Basic Principles of Curriculum and Instruction, Chicago: University of Chicago Press. 128 pages. Important discussion of product-oriented curriculum building.

What is curriculum? Exploring theory and practice - infed.org:

When the time comes to move from curriculum planning to implementation of differentiated instruction, the last two stages of the backward design process must, of necessity, be reversed. In backward design, it makes sense to identify desired results, then determine acceptable evidence of those results, and then plan for teaching designed to ensure that each student succeeds with the desired ...
