From Seed To Plant Study
In this unit, students will dissect, discover, sort, and plant seeds. While recording growth over time, students will identify the structures of plants, including seeds, roots, stems, leaves, flowers and fruit. Finally, they will learn how much we depend upon plants by categorizing common plant products found in our classroom and in their home.

From Seed to Plant Life Cycle Unit Study The theme for Nature Book Club this month is Life Cycles. Something as simple as growing a plant from a seed is an excellent way to teach your kids about the life cycle of a plant.

From Seed to Plant Life Cycle Unit Study | Faith & Good Works
This is a well written and illustrated book that details the life cycle process of a plant growing from seed to plant, hence the title. The pictures are large and colorful, and the sentences are short and concise-written so a young child can understand. I have used this book with pre-K and kindergarten students, and even 4th graders love it!
