The experience of international environmental law over the last 20 years provides an important lesson for international health lawmaking efforts and global health governance. Despite notable achievements in this field, the absence of an umbrella environmental agency has led to uncoordinated lawmaking activity by many intergovernmental organizations and, at times, counterproductive and ...

This programme includes Global Governance Through Law as a compulsory module, and offers many optional modules in specialised subjects in international law. You'll critically engage with a rich collection of contemporary themes set against the background of the concerns and activities of states and non-state actors in the international community.

## **International Law and Global Governance LLM | University ...**

In the 1980s, health was a marginal issue on the international political agenda, and it barely figured into donor states' foreign aid allocation. Within a generation, health had developed a robust set of governance structures that drive significant global political action, incorporate a wide range of actors, and receive increasing levels of funding.

By Mark Eccleston-Turner and Scarlett McArdle. Recently the World Health Organization (henceforward WHO) has received significant criticism for its choice of action, as well as on occasion its inaction, with much of this criticism focusing on the role the Organization plays in coordinating the global response to potential pandemics.<sup>1</sup> While the merits of these criticisms are not the focus of ...
