EconPapers: Handbook of Labor Economics, vol 3

The Handbook of Labor Economics, Volume 4 will bring together a systematic review of the research topics, empirical findings, and methods that comprise modern labor economics. It will serve as an introduction to what has been done in this field, while at the same time indicating possible future trends which will be important in both spheres of public and private decision-making.

Handbook of Labor Economics, Volume 4

Series: Handbook of Labor Economics. Modern labor economics has continued to grow and develop since the first volumes of this Handbook were published. The subject matter of labor economics continues to have at its core an attempt to systematically find empirical analyses that are consistent with a systematic and parsimonious theoretical understanding of the diverse phenomenon that make up the labor market.

Handbook of Labor Economics, Volume 3B - 1st Edition

Revisions in media. "Labor economics" has continued to expand both in the extent and depth of coverage in recent years. Volume 4 of the Handbook has succeeded in not only updating coverage in many areas, but in synthesizing studies and approaches in ways that contribute importantly to the field. Economists with interests in many areas, ranging from field experiments to gender to early-life human capital investments, will benefit from the excellent chapters in this volume."
