Video-In this completely free DIY video we show you how to install Progressive shocks on a Harley-Davidson motorcycle. We used a set of Progressive 944 Ultra Touring shocks and installed them on a Harley Street Glide.. These Progressive shocks were specifically designed to deliver a comfortable ride at a 1" lowered stance.

Install 944 Ultra Touring Progressive Shocks Harley Davidson

on Progressive Suspension shocks is not recommended. Use of a lowering kit may void the warranty or damage the shock/motorcycle. Progressive Suspension shocks are designed to work on the OEM (Original Equipment) frame and swingarm. Use of these shocks on a frame or swingarm other than OEM may produce an unsatisfactory ride and void the warranty.

TOOLS NEEDED: NOTE: INSTALLATION: 1. 2. 3.

Snug the strap down, but do not compress the shock. Remove the right shock. Using the upper bolt only (Don't forget the BLUE Loctite!), mount the right shock. Use the strap to compress the left shock until you can install the right lower bolt (again with BLUE Loctite). Torque the bolts to spec. Remove the left shock. Install the left shock.

Instructions for removal and install new Progressive 412 ...

To do this simply remove the screw in the center of the knob and pull it straight off (fig.1). Prepare both shocks for mounting by threading the supplied non-flanged nuts all the way onto the stud mounts, followed by a supplied bushing-cup, bushing, and sleeve (fig.4).

Progressive Suspension Motorcycle Suspension Parts ...

944 ULTRA LOW: Just like the name implies, this is the lowest version of our 944 Series shocks. Designed to sit 2" lower than a stock HD Touring model and provide the best ride a short shock can! *There is no substitute for suspension travel, for optimum ride quality we recommend the taller Ultra Touring version of our 944 Series shocks.
