Web: UK, Coal Mining Accidents and Deaths Index, 1878-1935

Even with improving working conditions, mining was still dangerous work. Experienced miners learned to be cautious, and the REPORTS OF MINE INSPECTORS indicated that experienced miners were far less likely to die in an accident than novices. Not so surprisingly, more mining accidents happened on Monday than on other days of the week.

Mining Fatalities 1/13/2015 County B Date of Accident

A mining accident is an accident that occurs during the process of mining minerals or metals. Thousands of miners die from mining accidents each year, especially from underground coal mining, although accidents also occur in hard rock mining. Coal mining is considered much more hazardous than hard rock mining due to flat-lying rock strata, generally incompetent rock, the presence of methane gas ...
