On The Way To Language

One the Way to Language enable readers to understand how central language became to Heidegger's analysis of the nature of Being. On the Way to Language demonstrates that an interest in the meaning of language is one of the strongest bonds between analytic philosophy and Heidegger. It is an ideal source for studying his sustained interest in the problems and possibilities of human language and brilliantly underscores the originality and range of his thinking.

On the way to language (Book, 1982) [WorldCat.org]

about language. Speaking about language is a particular way of speaking a language. Speaking about language turns language on itself. As I mentioned above, to turn language on itself, philosophers of language have employed a metalanguage that includes words like: assertion, proposition, semantics, syntax, and truth-value.
