Inheritance - Review Questions - ClassNotes

Section 1: Human Inheritance Objectives: 1. Identify some patterns of inheritance in humans. 2. Describe the functions of the sex chromosomes. 3. Explain the relationship between genes and the environment.

Section 1: Human Inheritance - Ms. Lariviere's Grade 7 ...

Inheritance can be defined as the process of how a child receives genetic information from the parent. The whole process of heredity is dependent upon inheritance and it is the reason that the offsprings are similar to the parents. This simply means that due to inheritance, the members of the same family possess similar characteristics.
